

# PENREN this Week

January 26, 2004

## Ancillary Projects

Ancillary Projects are numerous smaller projects required for security, communications and swing space that are necessary to keep the program rolling. PENREN's Ancillary Team and Small Business Office develop partnerships with up and coming contractors to work in the Pentagon.

## Construction on CCSP Space...

Tile installation in what will be the "voice room" of the future Data Center Staging Facility.

## Mughandle Waterproofing

Area along adjacent wall has been excavated with bentonite mats in place to serve as a water proofing barrier.

## Intake/Outfall

A new intake water line will supply condenser water to the Pentagon air conditioning chillers and the outfall line dispenses warmed condenser water into a local waterway.

Installing the trash rake at the Intake Structure.

## Dredging of the Intake Channel

## Roads, Grounds & Security

Two Roads, Grounds and Security Projects are currently underway, the Remote Delivery Facility Secure Access Lane (RDF-SAL) along Route 27 and the Pentagon Secure Bypass (PSB) Lane which involves the rerouting of Route 110 through the Pentagon North Parking lot.

Workers place concrete on the bridge deck of what will be the southern pedestrian bridge.

Pentagon Renovation Program

## "MEET THE RENOVATORS"

### Sabrina Pollard, Principal Administrative Assistant

Sabrina supports the Program Manager and Deputy Program Manager of PENREN with their daily activities, including managing calendars, establishing priorities, meeting deadlines, and facilitating meetings with our senior-level customers in the Pentagon.

*In her own words:* "I believe that what makes my job most satisfying (other than working for the greatest boss in the world!) is the patriotism exhibited by the PENREN staff. I appreciate the pride we at PENREN put into helping make this a safer place."
